

# BS211

Medium to Heavy Capacity Belt Scale

## Specifications

**Conveyor Width:**  
500 to 2.000 mm

**Capacity:**  
3.000 t/h

**Belt Speed:**  
4 m/s

**Inclination:**  
25 degrees

**Integrator:**  
**Application will determine:**  
WE302D, WE303D, WE403D, WE404D, 920BCi

**Accuracy Guidelines:**  
0,5 / 1 / 2  
MID approval

**System Accuracy:**  
0,50%

**Material:**  
Powder coated steel

**Junction Box:**  
JBW

**Speed Pickups:**  
**Application will determine:**  
SPU5020, SPU5826, SPU012P, SPU2160N,  
SPU2160EN

**Warranty:**  
One-year limited warranty

## Standard Features

- Friction-free pivots
- One load cell carrier beam
- Fits standard conveyor
- Custom made

## Options Available

- Models available for ATEX, categories II2D and II3D (zone 21 and 22)

## Applications

- Medium to heavy capacity belt scales
