

## TIL-04-TS TIL-04-TS-Q

### Level Indicator 3 colour LED

- Mounting diameter  $\varnothing 22\text{mm}$
- Waterproof IP65
- Connecting conductors max.  $2\text{mm}^2$
- Panel thickness max.  $12\text{mm}$
- Operating temperature  $-25..+55^\circ\text{C}$
- Built-in lamp test
- Consumption  $<2\text{W}$
- Estimated life span: 200 000 - 300 000 hrs

| Type                                                                                                                                                                                                                                                                                                                                           | Design | LED 1  | LED 2  | LED 3  | Voltage  |  |
